MANAGEMENT DISCUSSION AND ANALYSIS

During the first six months ended 30 June 2025 (the “**Period**”), the Group’s total revenue was approximately HK\$45.3 million, representing a decrease of approximately HK\$8.1 million or 15.2% as compared to corresponding period for the six months ended 30 June 2024 (the “**Previous Period**”). The Group recorded a consolidated profit before tax of approximately HK\$104.6 million (2024: loss of approximately HK\$94.2 million). After allocating the loss attributable to non-controlling interests for approximately HK\$3.3 million (2024: approximately HK\$3.2 million), the profit attributable to shareholders of the Company for the Period was approximately HK\$107.7 million (2024: loss of approximately HK\$91.1 million).

The profit for the Period is mainly attributable to the combined effects of:

- (i) a net fair value gain on financial assets at fair value through profit or loss of approximately HK\$79.1 million;
- (ii) a reversal of impairment loss on margin loan receivables amounting to approximately HK\$36.5 million;
- (iii) the share of profit from associates of approximately HK\$44.4 million; and
- (iv) a net fair value loss on investment properties amounting to HK\$67.0 million.

Apart from the consolidated profit before tax for the Period in the amount of approximately HK\$104.6 million (2024: loss of approximately HK\$94.2 million) mentioned above, the Group also recorded other comprehensive income of approximately HK\$35.1 million for the Period (2024: expense of approximately HK\$67.3 million) mainly due to the share of other comprehensive income of an associate recognised during the Period in the amount of approximately HK\$26.8 million (2024: expense of approximately HK\$0.9 million).

INTERIM DIVIDEND

No final dividend in respect of the year ended 31 December 2024 was paid during the six months ended 30 June 2025 (2024: Nil).

Apart from the aforesaid, the Board has resolved not to declare any interim dividend for the Period (2024: Nil).

BUSINESS REVIEW

In the first half of 2025, Hong Kong economy began to show signs of recovery. The one-month HIBOR (Hong Kong Interbank Offered Rate) fell significantly from 4.2% to 0.7%. The Hang Seng Index (HSI) rose by about 20% from 19,933 points to 24,072 points, thanks to positive market sentiment and strong performance in the technology and financial sectors. These indicators suggest improved liquidity and investor confidence in Hong Kong’s financial markets.

The principal activities of the Group are classified into the following business segments:

(1) Financial services – operations licensed under the SFO

The Group has been engaging in the provision of dealing in securities (including the provision of margin loans to clients), dealing in futures contracts and asset management services with Type 1, Type 2 and Type 9 licences respectively granted under the Securities and Futures Ordinance (the “**SFO**”) for years. It has further stepped into the businesses for advising on securities, advising on futures contracts, the provision of corporate finance advisory services, automated trading services and securities margin financing services with Type 4, Type 5, Type 6, Type 7 and Type 8 licences under the SFO.

MANAGEMENT DISCUSSION AND ANALYSIS

There was no asset management service income during the Period (2024: approximately HK\$1.2 million). Margin loan interest income decreased to approximately HK\$6.0 million during the Period (2024: approximately HK\$35.6 million). The decrease in margin loan interest income is mainly due to the margin loan interest rate was lowered from 8% for the Previous Period to 2% in the Period.

The Group has engaged in Type 6 regulated activity, i.e. advising on corporate finance, under the SFO. The Group's revenue from such services increased to approximately HK\$3.6 million (2024: approximately HK\$1.8 million). The increase in revenue for the Period was mainly due to more clients requiring financial advisory services under recovering stock market conditions.

As a result, the segment revenue of approximately HK\$13.9 million was 64.5% lower than the corresponding figure of approximately HK\$39.1 million for the Previous Period. Accordingly, the segment profit increased from approximately HK\$22.6 million for the Previous Period to approximately HK\$46.6 million for the Period, mainly due to the reversal of impairment loss on margin loan receivables.

The Group, through its subsidiaries, is licensed by the Securities and Futures Commission (the "SFC") to engage in a full suite of regulated activities under the SFO, including Type 1, Type 2, Type 4, Type 5, Type 6, Type 7, Type 8 and Type 9 regulated activities. The Board expected that a more comprehensive profile of licences under the SFO will create a synergy effect favourable to the Group's development of the integrated financial services business.

To further expand this segment, the Group has successfully applied for a licence to conduct Type 3 (leveraged foreign exchange trading) regulated activities under the SFO. The official written approval from the SFC was received by the Group in June 2025.

(2) Credit and lending services – operations licensed under the MLO

The Group conducts its money lending business with a money lenders licence held by the Group under the Money Lenders Ordinance (the "MLO"). The Group's clientele primarily consists of niche customers including corporations and high net-worth individuals. These clients mostly have been acquired through business referrals and introductions from the Company's senior management, business partners or clients. Besides in compliance with all rules and regulations imposed under the MLO, the Group has also formulated internal money lending policy to guide its money lending team in conducting the money lending operations. The loan terms would be arrived at after considering a combination of factors including prevalent market interest rates, the financial strength of the borrower, the collaterals offered as past credit history of the borrower with the Group and adjusted, if necessary, by arms-length negotiations with the borrower. The related internal control procedures were strictly complied with during the Period.

During the Period, segment revenue from credit and lending services increase from approximately HK\$1.6 million in the Previous Period to approximately HK\$2.3 million. The increase was primarily due to more loans granted during the Period. As at 30 June 2025, total principal amount and accrued interest stood at approximately HK\$232.8 million with loans receivable due from the largest borrower and the five largest borrowers in aggregate accounting for approximately 21.5% and 66.8% of this total, respectively. Additionally, the balance of loan and interest receivables increased from approximately HK\$119.0 million as at 30 June 2024 to around HK\$232.8 million by the end of the Period. As a result, the segment profit increased to approximately HK\$2.4 million during the Period from HK\$0.4 million in the Previous Period.

MANAGEMENT DISCUSSION AND ANALYSIS

The ongoing macroeconomic challenges have affected some of our clients. In response to their needs, we have provided temporary relieving measures to certain clients. Our focus remains on building long-term, sustainable relationship while maintaining the health of our loan portfolio. We are actively engaging with clients to develop flexible and tailored solutions.

The Company retained an independent professional valuer to conduct impairment assessment on the outstanding loans for each reporting period end date, approximately HK\$0.6 million impairment allowances were provided on the outstanding loans receivable as at 30 June 2025 (30 June 2024: approximately HK\$2.0 million).

(3) Other financial services

To diversify the Group's financial services, the Group has also carried on the business of providing corporate advisory related services in Hong Kong since October 2020. During the Period, the segment revenue amounted to approximately HK\$6.3 million (2024: approximately HK\$7.2 million) while the segment recorded a loss of approximately HK\$1.0 million (2024: profit of approximately HK\$2.0 million). The decrease in advisory revenue primarily reflects intensified competition in the segment and longer case processing time during the Period. Additionally, higher administrative expenses were incurred due to increased operational costs and staff costs.

(4) Property investment and leasing

During the Period, segment revenue was approximately HK\$5.5 million (2024: approximately HK\$5.7 million) and segment loss was approximately HK\$67.8 million (2024: approximately HK\$11.6 million). The slight reduction in segment revenue was mainly due to the financial difficulty of a tenant. The increase in segment loss was mainly due to the increase in fair value loss on investment properties by HK\$67 million resulting from the weak local property market as compared to the Previous Period. As at 30 June 2025, the Group held 4 commercial properties in Hong Kong for leasing to independent third-party tenants for rental income with a total fair value at HK\$340.5 million (30 June 2024: approximately HK\$495.8 million).

(5) Tactical and strategic investment

The amount of resources allocated by the Group to this segment (in the form of financial assets at FVPL) was approximately HK\$189.5 million at the Period (31 December 2024: approximately HK\$110.3 million). The Group had revenue of about HK\$97.0 million from this segment for the Period (2024: approximately HK\$1,000). The segment profit was approximately HK\$140.4 million during the Period (2024: loss of approximately HK\$88.2 million) mainly due to (i) share of profit of associates (which is principally engaged in holding listed equity investments) amounted to approximately HK\$44.4 million (2024: loss of approximately HK\$46.4 million); and (ii) net fair value gain on the financial assets at FVPL at approximately HK\$79.1 million (2024: loss of approximately HK\$39.9 million).

MANAGEMENT DISCUSSION AND ANALYSIS

PROSPECT

The Company is exploring investment opportunities to ensure long-term growth and enhanced returns for its shareholders.

The Board is aware of the Hong Kong Government's effort to promote technology development, including faster approval process for fintech firms. Hong Kong's position as a gateway to mainland China offers access to one of the largest technology markets globally, making it an attractive hub for technology-driven businesses. The financial industry in Hong Kong is undergoing digital transformation, increasing demand for innovative solutions and services.

To the best of the Board's knowledge, the Company may well be the only non-bank listed company with subsidiaries licensed by the SFC to engage in Type 1 through Type 9 regulated activities under the SFO. To seize fintech opportunities and support business growth, the Company looks to reinforce the Group's integrated financial services and expand into innovative technology-driven financial services areas like cryptocurrency financing, investment, and trading.

The Board believes that the Group's focus on AI chip business development and fintech-related services will create substantial long-term shareholder value.

FINANCIAL REVIEW

Revenue

The overall revenue of the Group for the Period was approximately HK\$45.3 million, representing a decrease of approximately HK\$8.1 million from the Previous Period. Financial services income including those from other financial services aggregated to approximately HK\$19.7 million (2024: approximately HK\$46.2 million). Interest income from the Group's money lending business increased to approximately HK\$2.3 million (2024: approximately HK\$1.6 million). Rental income of the Period slightly reduced to approximately HK\$5.5 million (2024: approximately HK\$5.7 million). The revenue from tactical and strategic business for the Period was approximately HK\$17.9 million (2024: Nil) mainly as a result of the Group's disposal of part of financial assets.

Other comprehensive income

The Group has other comprehensive income of approximately HK\$35.1 million for the Period (2024: loss HK\$67.3 million), mainly due to the share of other comprehensive income of an associate recognised during the Period in the amount of approximately HK\$26.8 million (2024: expense of approximately HK\$0.9 million).

Net asset value

The unaudited consolidated net asset value of the Group as at 30 June 2025 was approximately HK\$1,762.4 million, representing an increase of approximately HK\$165.5 million from the end of last financial year. The unaudited consolidated net asset value per share as at 30 June 2025 was approximately HK\$1.83.

Capital structure

The Group's capital expenditure and investments were mainly funded from cash on hand, internally-generated funds and bank borrowings.

The Group persistently adopts conservative treasury policies in cash and financial management. Cash is generally placed in short-term deposits mostly denominated in Hong Kong dollars. The Group does not use any financial instruments for hedging purpose.

MANAGEMENT DISCUSSION AND ANALYSIS

Liquidity and financial resources

The Group's cash and cash equivalents (excluding trust and segregated accounts), being mainly denominated in Hong Kong dollars, was approximately HK\$100.1 million as at 30 June 2025 (31 December 2024: approximately HK\$39.3 million). The cash and cash equivalents and the financial assets at FVPL (classified under current asset) in aggregate were approximately HK\$184.9 million as at 30 June 2025 (31 December 2024: approximately HK\$100.2 million). The liquidity of the Group was very strong with a current ratio of 3.7 as at 30 June 2025 (31 December 2024: 3.9). The Group had bank borrowings in the sum of approximately HK\$218.3 million as at 30 June 2025 (31 December 2024: approximately HK\$227.9 million). The Group did not have any available short-term revolving banking facilities as at 30 June 2025 (31 December 2024: Nil).

Exposure to fluctuation in exchange rates and related hedges

As the Group's major source of income, expenses, major assets and bank deposits were denominated in Hong Kong dollars and U.S. dollars, the Group's exposure to fluctuation in foreign exchange rates was minimal due to the pegged exchange rate to the U.S. Dollars. The Group did not have any related hedging instruments.

Gearing ratio

As at 30 June 2025, the gearing ratio of the Group, as measured by dividing the net debt to Shareholders' equity, was 12.8% (31 December 2024: 14.9%). The decrease in gearing ratio was mainly attributable to the increase in the Shareholders' equity. Net debt was calculated as interest-bearing borrowings plus other payables and accruals, net of cash and cash equivalents.

Contingent liabilities

The Group did not have any material contingent liabilities as at 30 June 2025 (31 December 2024: Nil).

Charge on Group assets

As at 30 June 2025, the Group pledged its investment properties with carrying value of approximately HK\$308.5 million (31 December 2024: approximately HK\$359.8 million) as security for general banking facilities granted to the Group.

Significant investments

An investment with carrying value of 5% or more of the total assets of the Group is considered as a significant investment of the Group. The Group treated the equity interest in Green River Associates Limited ("**Green River Marshall**") incorporated in Marshall Islands as an investment in associate. Green River Marshall primarily engages in securities investment, is a strategic partner of the Group in developing the tactical and strategic investment business. The Group holds approximately 47.8% of the total issued share capital of Green River Marshall. As at 30 June 2025, the carrying amount of investment in Green River Marshall amounted to approximately HK\$215.5 million, which represented approximately 10.5% to the Group's total assets. During the Period, the Group's share of profit of Green River Marshall was approximately HK\$44.5 million (2024: loss of approximately HK\$43.3 million), which was mainly a result of Green River Marshall's fair value changes on its financial assets.

The Group treated the equity investment in HEC Securities Company Limited ("**HEC Securities**") incorporated in British Virgin Islands as an investment in associate. HEC Securities primarily engages in holding investments in credit financing and securities investment business. The Group holds approximately 33.0% of the total issued share capital of HEC Securities. As at 30 June 2025, the carrying amount of investment in HEC Securities amounted to approximately HK\$102.8 million, which represented approximately 5% to the Group's total assets. During the Period, the Group's share of loss of HEC Securities was approximately HK\$0.1 million (2024: share of loss of approximately HK\$3.1 million), which was mainly a result of HEC Securities' realised loss on its financial assets.

MANAGEMENT DISCUSSION AND ANALYSIS

The investments in Green River Marshall and HEC Securities were strategically structured for long-term value creation rather than short-term market alignment. They focus on various return sources, providing stability and diversification, even if their performance may not always mirror short-term public market fluctuations. We will continue to closely monitor these strategic investments and are prepared to make tactical adjustments as needed.

The following table further set forth the significant investments with a value of 5% or more of the Group's total assets as at 30 June 2025:

Name of investee	Number of shares held as at 30 June 2025	Investment cost as at 30 June 2025 HK\$'000	Carrying amount as at 30 June 2025 HK\$'000	Realised gain/(loss) recognised during the period ended 30 June 2025 HK\$'000	Unrealised gain/(loss) recognised during the period ended 30 June 2025 HK\$'000	Approximate % to the Group's total assets as at 30 June 2025	Approximate % of shareholding in investee as at 30 June 2025	Dividend income recognised during the period ended 30 June 2025 HK\$'000
Green River Marshall	122	330,603	215,498	44,507	570	10.5	47.8	-
HEC Securities	50,945,400	98,604	102,752	(131)	26,238	5.0	33.0	-

Save as disclosed above and elsewhere in this announcement, there was no other significant investment held, nor were there any material acquisitions or disposals of subsidiaries, associates or joint ventures during the reporting period under review (2024: Nil). There was no present plan authorised by the Board for material investments or acquisition of material capital assets as at the date of this interim results announcement.

As at 30 June 2025, the Group held a diversified portfolio of financial assets at FVPL and Designated FVOCI (comprising equity investments in 14 listed companies in Hong Kong) with a total carrying value of approximately HK\$196.0 million (31 December 2024: approximately HK\$159.7 million). Each of the equity investments in the said portfolio accounted for less than 5% of the Group's total assets as at 30 June 2025 and therefore was not considered as a significant investment held by the Group.

Significant events since the end of the Period

On 8 May 2025, Planetree Lavie Limited, a wholly-owned subsidiary of the Company, entered into a sale and purchase agreement with Mr. Dai Bin, an independent third party by that time, to acquire the entire equity interest in Warpdrive Technology Limited by allotting and issuing 15,000,000 ordinary shares of the Company on 26 June 2025. The acquisition, completed in July 2025, enhances our portfolio. Integrating Warpdrive's capabilities is expected to contribute positively to the Group's overall business strategy.

INTRODUCTION

We have reviewed the interim financial information set out on pages 14 to 40, which comprises the condensed consolidated statement of financial position of Planetree International Development Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) as at 30 June 2025 and the related condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the six months period then ended and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard (“**HKAS**”) 34 “*Interim Financial Reporting*” issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with HKAS 34.

Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with HKAS 34.
